

Nutrition and Wellness Tips for Young Children

Part 2

At-Home Training

ND Growing Futures approved – 1 hour training credit

Directions: This at-home training is based on the loose leaf book, ***Nutrition and Wellness Tips for Young Children***, published by the USDA. This book was distributed to SENDCAA providers several years ago. If you do not have a print book, you can access and download the digital version of this book from our website: <https://www.sendcaa.org/foodprogram/foodprogram.html>. It will be found under the “For our Providers” tab, then under the “Training” tab.

This training covers the material in the second section, “**Active Play Tips and Supplements**” (red tab of the printed book). Read the tip sheets for each subject and then answer the corresponding questions in the attached quiz. The entire quiz must be completed and sent to SENDCAA to earn the training credit.

Your training will be submitted to Growing Futures after you have completed the quiz and qualified for the training credit. We are no longer issuing certificates for completed training. You can log into Growing Futures and check your profile for your training hours. Go to www.ndgrowingfutures.org/ and choose the "training". All of your trainings will appear, beginning with the most recent. This training is only available to participating SENDCAA providers and their child care employees.

Return completed quiz to:
