Individual and Family Level National Performance Indicators

All individual and family-level performance indicators and services are categorized within seven of the nine domains that organize the work of the Community Action Network: Employment; Education and Cognitive Development; Income and Asset Building; Housing; Health and Social/Behavioral Development; Civic Engagement and Community Involvement; and Outcomes and Services Across Multiple Domains. The CSBG Annual Report is comprised of indicators to report outcomes that fall under National Goal 1: Individuals and families with low incomes are stable and achieve economic security. The indicators are the vehicle by which SENDCAA reports the work we do that changes conditions at the individual and family level.

FY 18

Module 2, Section A: Local Agency CSBG Expenditures - Data Entry Form

Section A: Local Agency CSBG Expenditures Date Entry Form meets the Congressional requirement for an explanation of the <u>total amount of CSBG funding expended during the reporting period (identified below)</u> based on categories referenced in the CSBG Act.

NOTE: CSBG funding expended during the reporting period should be reported in the domain that best reflects the services delivered and strategies implemented. Further instructions will be provided but please keep the following in mind, per domain.

Domain A.2g Services Supporting Multiple Domains: Expenditures reported under Services Supporting Multiple Domains are those that span or support outcomes achieved across multiple domains for families and individuals, such as case management, transportation, and childcare.

Domain A.2h Linkages: Many of the activities that were associated with Linkages are now captured in Domain A2.i. Agency Capacity Building. This narrows the definition of Linkages, but continues to include community initiatives and information and referral calls.

Domain A.2i Agency Capacity Building: Agency Capacity Building expenditures are detailed in A.4 on this form.

A.3 Reporting on Administration: Administrative costs for CSBG reporting are defined by the Office of Community Services as "equivalent to typical indirect costs or overhead." As distinguished from program administration or management expenditures that qualify as direct costs, administrative costs refer to central executive functions that do not directly support a specific project or service.
